PRUNUS persica 'MORTON'

peach 'Morton'

Grafted nectarine, pink flower end of winter, smooth skinned fruit.

Maintenance advice: After flowering, find and cut down the non flowering branches, leaving just 2-3 buds. Shorten other less flowering branches, to just above a leaf bud, to rejuvenate. Pinch the young shoots (break off between fingers while soft, or cut off, to shorten by about a half), all along the branches, to help floral buds develop the following year.

Botanical/Horticultural origin: Horticultural origin: breeder Cornell University, New York (US) 1965

Use group: Fruit TreesHeight at 10 years: 4 mWidth at 10 years: 3 m

Growth: FastFragrance: No

Exposure: Full sun

Evergreen/Deciduous:
Deciduous

Shape: tree like

Colour of leaves: Green

Colour of flowers: Pink
Soil type: Indifferent

Uses: Fruit tree, Free standing specimen,
